

BAND-IT®

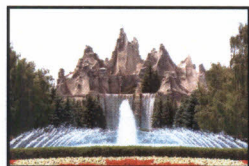

Entertainment

Complete Line of Fastening Solutions for Entertainment Applications

- Fast, easy application
- Corrosion and UV resistant
- Temporary and permanent solutions
- Broad product selection

Fluid Transfer

BAND-IT® stainless steel hose clamps can be used on wastewater hoses or anywhere you need to move fluids from one point to another.

Device Attachment & Mounting

When you need to fasten, clamp, bundle, band or just hang something, BAND-IT® products stand up to the elements and stay put for the long haul. Great for hanging PA systems or security systems and other miscellaneous objects.

Traffic Management & Sign Hanging

BAND-IT® carries the products to hang safety signs, traffic signs, directional signs, banners and other media quickly and permanently.

Colour & Identification

COLOR-IT® products are used on ride attractions when the need to hang or clamp something requires the attention to detail of a color matched product. COLOR-IT® products are corrosion and UV resistant.
